

## Systemic Infection/Inflammation

- Bacteremia (positive blood cultures only)
- Urosepsis—MUST specify sepsis with UTI, versus UTI only
- Sepsis—specify causative organism if known
- Sepsis due to:
  - Device
  - Implant
  - Graft
  - Infusion
  - Abortion
- Severe sepsis—sepsis with organ dysfunction
  - Specify organ dysfunction
    - Respiratory failure
    - Encephalopathy
    - Acute kidney failure
    - Other (specify)
- SIRS (Systemic Inflammatory Response Syndrome
  - With or without organ dysfunction
- Document septic shock if present
- Document any associated diagnoses/conditions
